Improvement of investment and innovation strategies in the leather and fur industry (using the examples of bukhara and navoi regions)

Ibragimov Aziz Turayevich
Lecturer at Asia International University,

Abstract. The article comprehensively discusses the issues of improving investment and innovation strategies in the leather and fur industry, using the examples of Bukhara and Navoi regions. It proposes economic, organizational, and innovative mechanisms to enhance efficiency in this sector, along with suggestions for attracting investments and implementing new technologies. Measures aimed at increasing production efficiency, improving product quality, and ensuring competitiveness through the application of innovative approaches in industrial enterprises are analyzed.

Key words: leather and fur industry, investment, innovation, strategy, economic mechanism, organizational mechanism, efficiency, competitiveness, technology, Bukhara, Navoi, development, design, improvement.

Uzbekistan Leather and fur in the Republic industry of the economy important from networks one as of the country export potential in increasing and internal market requirements in satisfaction big importance has . Bukhara and Navoi provinces in the example of this in the field investment and innovative strategies improvement through working release efficiency increase , product quality improve and international at the market competitiveness provision important from tasks This is one of them . article modern economic under the circumstances leather-fur in the industry investments attraction to do and innovative technologies current to grow through enterprises activity to develop aimed at analysis and suggestions presented will reach .

Industry in enterprises effective management system forming , new technological solutions current to grow and employees innovative to processes attraction to do through enterprises not only internal , maybe external in the markets also own instead reinforcement possible . Bukhara and Navoi provinces resources and economic potential point of view from the point of view this industry for big to opportunities has is local enterprises modern innovative approaches through global competition in the environment to success to achieve possible .

Bukhara and Navoi in the provinces leather-fur industry enterprises own in the activity often investment resources shortage , outdated technologies and ineffective management systems such as to problems face is coming . This problems eliminate to grow for investment and innovative strategies improvement , new technologies current to grow and employees qualification increase through working release efficiency increase necessary . This article this in the field there is problems analysis to do and solutions offer to do focused .

Subject in learning scientific abstraction , analysis and synthesis , economic literature analysis to do , compare analysis and statistic information again work from the methods used . Bukhara and Navoi in the provinces leather-fur industry of enterprises activity analysis investment and innovative strategies improvement according to practical recommendations working It was released .

THE MULTIDISCIPLINARY JOURNAL OF SCIENCE AND TECHNOLOGY

VOLUME-5, ISSUE-6

Leather- fur industry of enterprises activity in development investment and innovative strategies improvement important importance has . This in the field efficiency increase for following main directions determined :

1. **Investments attraction to do** Bukhara and Navoi in the provinces enterprises modern equipment current to grow and working release processes modernization to do for foreign and local investments attraction to do necessary . Investments attraction in doing state by presented attainable benefits and tax reliefs important factor is considered .

2. **Innovative technologies current to be** New working release technologies , for example , ecological clean processing to give methods and automated systems product quality increase and expenses reduce opportunity gives .

3. **Employees qualification increase** Innovative in processes of employees participation important importance They have . qualification increase and modern from technologies use according to teaching important .

4. **Market competitiveness increase** Local products international to standards adaptation and export opportunities expansion through enterprises in the global market competitive to be possible .

Investment efficiency assessment

Investment efficiency in evaluation the following formula is used : [S_i = T_i - X_i \ cdot E_n]

Here :

- (S_i) – annual investment return (sum);
- (T_i) – annual save (sum);
- (X_i) – one disposable investment expenses (sum);
- (E_n) – comparative economic efficiency coefficient .

Using this formula investments return deadline and their efficiency For example , Navoi leather industry in the region release enterprise new automated the line current to grow 600 million soums for investment entered if , annual I saved 180 million soums. organization will and return deadline about 3-4 years organization does .

Innovative strategies current in the process of following directions important :

- **Ecological clean technologies .** Leather processing in giving chemical substances reduce and water resources to save aimed at technologies current to be
- **Digitization .** Production release processes automation and monitoring systems current to grow through efficiency increase
- **Research and developments .** Local universities and scientific centers with in cooperation new product types and working release methods working exit

Conclusion and offers

Bukhara and Navoi leather and fur in the regions industry in enterprises investment and innovative strategies improvement working release efficiency increase , product quality improve and competitiveness in providing important importance has . The following offers this to goals to achieve help gives :

1. **Investment projects support system .** State and private in the sector investments attraction to do for privileged loans and tax reliefs system current to be

2. **Innovative centers organization to be** Bukhara and Navoi leather and fur in the regions industry for special innovative centers organization to grow through new technologies from the test transfer and current to reach acceleration .

3. **Employees teaching .** Qualification increase courses and international experience exchange programs organization to be

4. **Export opportunities expansion .** Products international to the market release for certification system develop and logistics infrastructure improve

Table 1: Investment and innovative strategies improvement offers

No.	Offers	Result
1	Investments attraction to do system Development : - Privileged loans and tax their relief current to ; - Foreign investors with cooperation expansion .	Investment potential increases , new projects done is increased .
2	Innovative technologies current : - Ecological clean processing to give methods application ; - Automated systems current to be	Production release expenses decreases , product quality increases .
3	Employees qualification increase : - Training and seminars organization - International experience exchange .	Employees efficiency and innovative activity increases .
4	Export opportunities expansion : - International to standards suitable products working - Logistics system improve	International at the market competitiveness increases .
